

ABOUT TCPA

Dedicated to helping ensure a successful energy future for Texas

Texas Competitive Power Advocates (TCPA) is a trade association representing power generators and wholesale power marketers with investments in Texas and the Electric Reliability Council of Texas (ERCOT) wholesale and retail electric markets. TCPA members are dedicated to helping ensure a successful energy future for Texas by investing in and operating diversified energy sources to ensure ample, reliable and affordable electricity for Texas consumers.

TCPA has an active presence at the Texas Legislature, the Public Utility Commission of Texas (PUC), and the Electric Reliability Council of Texas (ERCOT). In addition, the association works with the Texas Reliability Entity (Texas RE), the reliability compliance monitor for the ERCOT region. TCPA is the only Texas trade association that represents thermal generators without influence from other fuel sources or regulated market segments.

TEXAS COMPETITIVE POWER ADVOCATES

Membership Program

Thanks to the work of our members, Texas consumers are enjoying the benefits of the competitive electric market through lower electric prices, more energy service provider choices and reliable thermal generation.

TCPA members enjoy the benefit of experienced representation at ERCOT and the PUC, collaborating on issues central to thermal generators and the Texas competitive market overall. Members receive the latest information on market and legislative activities as well as benefit from long-tenured relationships with ERCOT and PUC executive management, commissioners, and leadership.
